# KEY FEATURES & BENEFITS

- 3-in-1 Capability: Along with material handling, rotating telehandlers function as mobile elevating work platforms and rough-terrain cranes.
- Confidence-Inspiring Technology: Features automatic attachment recognition, a Load Management Information System (LMIS) and Load Stability Indicator (LSI).
- Full rotation of the upper frame allows for both horizontal and vertical lifting. Standard Attachments and

360-Degree Continuous Rotation:

Accessories: 48-in standard carriage and forks, outrigger pads, LED worklights, and boom camera.
