Sound and Vibration Levels

Sound Pressure level (ground workstation)	90 dBA	90 dBA
Sound Pressure level (platform workstation)	77 dBA	77 dBA
Vibrations	< 2,5 m/s ²	$< 2,5 \text{m/s}^2$

The metric equivalent of working height adds 2 m to platform height. The imperial equivalent adds 6ft to platform height.
 Gradeability applies to driving on slopes and may vary depending on options and machine configurations. See operator's manual for details regarding slope ratings.

(3) Weight refers to standard configuration and may vary depending on options and/or country standards.

(4) Floor loading information is approximate and may vary depending on options and machine configurations. It should be used only with adequate safety factors.

Telescopic Boom Lifts
